

Neighbour Response

Case Ref - WA/2023/01467

Details

John Willacy, on behalf of the Old Park Lane Residents' Association

13 Old Park Lane
Farnham
GU9 0AJ

Att. Michael Eastham / Claire Upton Brown,

LAND CENTRED COORDINATES 483317 147157 OLD PARK LANE FARNHAM

Outline application with all matters reserved except access for up to 83 dwellings (including 24 affordable) and public open space/country park including related play space community orchard wildlife pond internal access roads footways/footpaths and drainage basins/corridor.

I am writing to you in respect of the above planning application on behalf of the Old Park Lane Residents' Association. I have also copied in Trevor Free of the Abbey View Residents' Association and Dave King of the NW Farnham Residents' Association.

We note that Gleeson Land have today seen fit to submit a large number (at least 18) of amended and new documents, relating to access, landscape, site plans etc for this application.

If I was being uncharitable I would suggest that this action, taken only 3 days ahead of the already deferred determination deadline, is a cynical attempt to try and avoid any significant scrutiny by either the general public or indeed relevant authorities who will need to review these plans.

I would ask that the LPA allow more time for these new documents to be properly reviewed and that the deadline is again deferred to allow for this.

As you will be both aware, this application is very high profile as evidenced by many hundreds of comments by both the general public, local councilors, businesses, community, environmental and biodiversity groups.

I would also like to believe that the LPA might wish to advise Gleeson to avoid repeating such action ahead of any amended deadline.
